

Notes for class

Thread machine with matching or contrasting thread.

Drop your feed dogs.

Do not iron fusible to fabric until I describe technique.

After ironing fusible in place, peel the paper backing off fusible.

Using 12 ½ inch cross hair ruler centered on top layer of fabric mark 8 point crosshair on top side of top layer of fabric. Also draw the outline of the ruler all the around the edge. Your block will finish as 12 ½ inches.

Layer block in this order, back fabric with wrong side up, batting, reveal fabric with face up, top fabric face up with fusible to the underside. Clip or pin layers together.
